From: **Ecolab S.A.**

To: **Astor S.A.**

Topic: **OxyGuard™ pallet & Disinfection against COVID-19**

We would like to inform you that ASTOR S.A. is cooperating with Ecolab using exclusive products of our company.

ASTOR S.A., in collaboration with our technicians, applies and complies with all standards during washing and with the required quality control before the delivery of the linen.

Constantly seeking higher quality levels, ASTOR S.A. is using the OxyGuard™ product range in order to offer top level service.

OxyGuard™ is an innovative, ecolabel certified, program offered by Ecolab, where washing is taking place in low temperature reducing the environmental footprint while offers superior whiteness and increased linen lifetime.

OxyGuard™ palette, at 60°C, is combined with a suitable biocide of our company, with approved microbial and biocidal efficacy, against the Covid-19 virus, according to the European standard EN 14476, for its disinfectant action.

ASTOR S.A. can offer this washing program against Covid-19.

In parallel ASTOR S.A. implements proTEX360 program which includes guidelines, protocols and procedures for ensuring the safe use chemicals needed to clean and disinfect the different areas of the facility against Covid-19.

We remain at your disposal for questions or if you need additional information.

Sincerely yours

Andreas Manesis
Sales Manager
Textile Care Division
